Chapter 40: The Second Clones' Duty

The second clones of Sung Jin-Woo and Sung Su-Ho, residing on Earth, have assumed the identities of S-Rank hunters and are dedicated to several critical missions to ensure the safety and prosperity of both Earth and the Sung Clan:

1. Defending Earth Against Threats

The second clones operate as Earth’s secret protectors, dealing with any threats—be they from rogue gates, dangerous dungeons, or external interdimensional invasions.

They ensure Earth remains a safe and flourishing haven for both humans and other-dimensional refugees.

2. Blending Into Society as S-Rank Hunters

To avoid drawing attention, they live as elite hunters, participating in guild operations, dungeon raids, and international hunter assemblies.

By disguising their true power, they seamlessly integrate into Earth’s hunter society, acting as role models and mentors to the younger generation of hunters.

3. Strengthening the Sung Clan Legacy

The second clones work to solidify the Sung Clan's influence on Earth, ensuring their family remains a beacon of strength and leadership in the hunter community.

They guide Sung Ye-Jun, Sung Ye-Rin, and their descendants, ensuring they develop their potential and uphold the values of the Divine Triad.

4. Monitoring Multiversal Events

Using their ascended vision, they keep tabs on the multiverse from Earth. They observe the movements of the first clones in the Abyss and other universes, ensuring a coordinated effort in handling cosmic threats.

5. Gathering and Managing Resources

They oversee the Sung Clan’s resources, including mana crystals, rare dungeon loot, and technological advancements, ensuring Earth remains equipped to handle future challenges.

They also collaborate with guilds and governments, subtly influencing policies to foster peace and prosperity.

6. Training New Generations

The second clones secretly train promising hunters, including Sung Clan members and allied hunters, teaching them advanced combat techniques, shadow manipulation, and dragonic power.

7. Building the Pavilion of the Divine Legacy

They oversee the Pavilion of the Divine Legacy, ensuring it serves as a sanctuary and training ground for the Sung Clan while remaining hidden from the public eye.

8. Preserving the Balance

Their presence ensures Earth remains balanced within the multiverse, protected from forces that might exploit its growing importance.

In summary, the second clones serve as Earth’s unseen guardians, maintaining the Sung Clan’s legacy, protecting humanity, and preparing for future threats—all while living inconspicuously as powerful yet humble hunters.
